Besides the Trust is working for legal aid to poor mass and panel of Advocates/ Geologists/ Disaster management team all working for the Trust. Besides the trust has areas of interest and activity. On income generation level formation of SHGs, weaving and textile making has been in the ambit of activity.

	<p>Micro finance or SHG was a part and parcel for those who were associated in the disposal process. NFE center on issue of child labour was logical out come in our programme. The families of the workers could not remain center cycled in the process. Hence issues like girl child, Women Empowerment had its role in the process. Yoga was in fore amongst the same class, herbal Plantation saw its beginning from the Rural Backdrop and was viewed as effective where composting was being done.</p>						
	<p>CHAKCHAK PATNA ABHIYAN: This was the inception name of the programme for garbage disposal at Patna. With passage of them it is now known with CHAKACHAK ABHIYAN local names are being addressed on its functional area. Here the idea is to lift kitchen garbage and to translate them into wormi compost at the level of its lifting. The process is gaining momentum.</p> <p>Health, Protection of Nature, Skill Development, Natural Disaster specially Earthquake/ Legal aid, Election awareness and Protection against natural disaster/Earth quake / Pollution/ Ecological Balance and Skill Development are the main theme of the organisation. Organization experience

SSET has essentially turned out to be an organisation, which is recognized by the masses, which has intervention on environmental issues. To be specific about Natural Disaster including earthquake, election awareness. Health awareness, population control awareness, pollution control awareness, legal aid awareness, literacy and garbage disposal and management has given a branching to the organisation. The central issue for the organisation has become that the executive director and couple of other members are now treated as specialist. To top it all funding agencies have extended hands to work with us. It is heartening.

However, other issues also include SHG and micro finance, child labour, NFE centers, Girl Child Education, Women empowerment and literacy, Yoga center or even Herbal Plantation has become a logical corollary of the central theme solid waste management.

Micro finance or SHG was a part and parcel for those who were associated in the disposal process. NFE center on issue of child labour was logical out come in our programme. The families of the workers could not remain center cycled in the process. Hence issues like girl child, Women Empowerment had its role in the process. Yoga was in fore amongst the same class, herbal Plantation saw its beginning from the Rural Backdrop and was viewed as effective where composting was being done.

	<p>SPREAD</p> <p>The organisation has a widespread area where composting and disposal is being done, To add on value addition by Aryurvedic plantation is being experimented. This can be done with negligible effort and does not need security from animals and has a cash value.</p> <p>Moreover we have developed centers from 20 slum of Patna and have extended its activities in rural areas in Patna, Siwan and Chapra.</p>
